RAJ KUSHWAHA

Kanpur, India • +91 9140260828 • rajkushwahapvt@gmail.com
LinkedIn • GitHub • LeetCode • GeeksforGeeks

PROFESSIONAL SUMMARY

Results-driven Computer Science undergraduate specializing in Artificial Intelligence, Machine Learning, and Modern Frontend Development. Proficient in building performant web applications with React.js and Tailwind CSS, alongside developing predictive ML pipelines. Strong foundation in Data Structures, Algorithms, and Object-Oriented Programming with a focus on writing clean, scalable code.

TECHNICAL SKILLS

Programming Languages:	Python, C++, C, JavaScript (ES6+), HTML5, CSS3
Frontend & Web:	React.js, Tailwind CSS, Responsive Web Design, REST API Integration, DOM Manipulation
AI / Machine Learning:	Scikit-learn, NumPy, Pandas, TensorFlow, PyTorch, Model Evaluation & Classification
Tools & Platforms:	Git, GitHub, VS Code, Postman, LeetCode, GeeksforGeeks
Core Competencies:	Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), Debugging

TECHNICAL PROJECTS

AI Study Assistant | ***React.js, Tailwind CSS, REST APIs, JavaScript*** **2026**

- Architected an AI-powered single-page application enabling students to generate automated lecture summaries, practice flashcards, and interactive study quizzes.
- Integrated RESTful AI API endpoints for prompt-driven dynamic text generation with seamless error handling and real-time state management.
- Designed a clean, fully responsive, mobile-first interface using reusable React component architecture and Tailwind CSS utility styling.

Fake Account Detection System | ***Python, Scikit-learn, Pandas, NumPy*** **2025**

- Engineered an end-to-end Machine Learning classification pipeline to identify and flag automated/fraudulent social media profiles.
- Conducted exploratory data analysis, missing-value imputation, and feature scaling on multi-variable datasets to train supervised classification models.

Gym Management Web Application | ***HTML5, CSS3, JavaScript*** **2025**

- Developed an interactive web portal for managing member memberships, workout schedule catalogs, and dynamic pricing plans.
- Implemented client-side input validation and dynamic DOM manipulation routines for enhanced user experience and fast response times.

WORK EXPERIENCE

CodeAlpha — **Python Developer Intern** **Internship**

- Developed modular Python utility scripts and implemented core algorithmic solutions adhering to industry coding standards.
- Conducted testing, code reviews, and debugging to optimize performance; tracked code changes using Git version control.

MyJobGrow — **Campus Ambassador** **Campus Leadership**

- Led outreach campaigns to promote career-readiness workshops and technical skill programs among college students.

EDUCATION

Allenhouse Institute of Technology — **B.Tech in Computer Science & Engineering (AI & ML)** **Kanpur, India**

HAL Vidyalaya — **Senior Secondary Education (Class XII, Science) | Score: 80%** **2024**

CERTIFICATIONS & ACHIEVEMENTS

- **Google:** Certificate of Participation — Pitch the Pitch Innovation Event
- **GeeksforGeeks:** DSA Launchpad Certification in Data Structures & Problem Solving
- **Hackathons:** Active participant in inter-college competitive hackathons & coding sprints
- **Problem Solving:** Regular contributor solving DSA challenges on LeetCode & GeeksforGeeks
